Whites are Tardy.

Leaders of both the political parties are complaining of the fact that the white people of the city have failed to turn out to register for voting. The Hawaiians have come out well at the booth of the Board of Registration, but there is a noticeably small number of whites on the rolls so far. A committee of volunteers of the Republican party was organized last evening for the purpose of making a personal canvass of the city to find out those who have not registered and to urge them to come out and sign their names so that they will be able to vote in November.

IT HAPPENED IN A DRUG STORE. "One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by Benson, Smith & Co., Ltd., wholesale agents.

ALSEN PORTLAND CEMENT

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STRONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand and gravel, with less loss of strength than any other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements, is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the sea wall around Governor's Island, New York Harbor has never been equalled by other cement. It is as follows: Tensile strength per square inch—One day, 354 pounds; seven days, 600 pounds; thirty days, 813 pounds.

For sidewalks it gives the best color and the most durable wearing surface.

A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 30,000 barrels; Northern Pacific R. R. Bridges, 20,000 barrels.
